"My professors at Bryant were phenomenal. They gave us the knowledge that we need, but they also let us make our own decisions.

Because of the Archway Investment course, where students make real investment decisions using real money, I was able to show employers what I actually did and the investment strategies that I had come up with.

Bryant helped me find internships with companies like Hasbro and PwC where I was able to use the skills I learned in class. PwC was so impressed with my work that they offered me a job."
